

National Engine Seal Numbers

(Written by Bruce Pierce, 3/30/00)

I recently received a book from Federal-Mogul (they bought out National seals) that lists seals by manufacturers part number. The book is the National Oil Seals master Interchange # 425. You can request a FREE copy by calling 1-800-560-1400. Here is the published list of Fairmont numbers and theirs. I cannot verify the accuracy of the list, but it is in the book along with Onan numbers, and Fairbanks-Morse.
